

TUITION BASED ON STUDENT POTENTIAL SCORE GOAL

The recommended number of tutorial hours is computed by Harriet based on prior test scores, the results of the SAT and ACT Skill Set Assessments, and information derived from the Parent and Student Profiles to determine each student's potential score goal.

The number of hours will likely be different for verbal and math. Depending on their prior skill sets and score goals, students will often require more hours in one area over the other. One of our core principles in designing our curriculum is efficiency – quality over quantity – and so we generally prefer to err on the side of underquoting rather than charging for unnecessary lessons. Of course, these initial estimates can be subject to change, and we do our best to communicate as early and often as we can with parents about how the course is progressing and to be flexible in accommodating schedule changes as a result.

Verbal Tutoring is taught by two instructors, so we offer two “levels” of service:

- **Premier Verbal Tutoring** (reading/writing/language) is conducted by Harriet Broder, founder and developer of the curriculum and materials used in Breakthrough's Test Prep Program for over 25 years. Harriet is well known in the Washington DC area for significantly boosting students test scores. Ultimately, students are provided with the best opportunity to get into the college of their choice. Recipient of Area's #1 Test Prep Tutorial Program. With over four decades of experience, Harriet has taught all levels of students from the Ivy League bound former President's daughter to the struggling student with weak critical reading skills.
- **Expert Verbal Tutoring** is conducted by owner and Program Director Dr. Allen Grabo. Allen's experience includes 10 years of tutoring prior to joining the Breakthrough team, and extensive real-world experience efficient reading and interpreting of scientific journals developed while completing his MSc and PhD programs in Psychology. Since first meeting Harriet he has received extensive one-on-one training sessions on both the curriculum and teaching methods, as well as observing and recording lessons to ensure that the quality of instruction students receive continues to meet the high standards we set for ourselves.

Science and Math Tutoring is conducted by Charles Upton. Charles has been involved with standardized test preparation for over fifteen years prior to coming on board with Breakthrough Test Prep. After a short time working with him it became apparent just how uniquely talented and well-suited he is for the position, and to offer him a role not just as instructor but as curriculum coordinator. His combination of the right demeanor, creativity, intelligence and most importantly his ability to create rapport with a wide variety of students enables him to craft individualized study programs and has proven successful at ensuring that they meet those goals and challenges.

Pre-payment is encouraged – we offer greatly discounted rates for hourly packages. Divided payments are an option for students enrolling in 16+ hours - half payments will include a \$50 surcharge, third payments a \$75 surcharge, and quarter payments a \$100 surcharge.

Checks can be made out to Breakthrough Test Prep, contact us for other payment options.

TUTORING PACKAGES AND PRICING
